Ta povezava velja samo za dan usposabljanja oziroma seminarja.

Za vaše prihajajoče usposabljanje vam podajamo nekaj koristnih informacij.

Microsoft Teams

Za naša virtualna predavanja ali seminarje uporabljamo programsko opremo MS Teams. Čeprav lahko MS Teams uporabljate prek brskalnika, priporočamo, da na svoj računalnik ali napravo prenesete aplikacijo MS Teams.

Brez dostopa MS Teams ne boste mogli obiskati naše virtualne učilnice.

Programsko opremo najdete v spletni trgovini pod imenom »MS Teams«; ikona je videti tako:

General information

You will need to click on the link below, as that is your invitation to attend the virtual classroom:

CLICK ON THE LINK:

This link is only valid for the allocated day of training and is specific to this training day.

We have provided some advanced information for your upcoming training.

Microsoft Teams

For our webinars, we use MS Teams software. Although you can use MS Teams through your browser, we recommend that you download the MS Teams App when so asked.

Without MS Teams access, you will not be able to attend our virtual classroom.

You will find the App in the App- or Android-Store under the Name "MS Teams" and the icon looks like this:

Kakšno opremo potrebujete?

Prenosnik, računalnik ali tablični računalnik s kamero in mikrofonom.

Ob prvi uporabi morate MS Teams dovoliti dostop do kamere in mikrofona vaše naprave. Sistem vas bo o tem samodejno vprašal in to morate tudi sprejeti oziroma potrditi, sicer se ne boste mogli udeležiti virtualne učilnice.

Nekaj tehničnih nasvetov

Priporočamo uporabo slušalk, da se izognete zvočnim motnjam. V idealnem primeru najbolje deluje naprava z vgrajenim mikrofonom, ki je lahko tudi brezžična (na primer Apple AirPods itd. - preko bluetooth povezave jih lahko enostavno povežete z računalnikom ali napravo).

Priporočamo, da med virtualno učilnico omejite druge naprave, ki uporabljajo Wi-Fi, da zagotovite dobro povezavo in s tem dobro kakovost zvoka in videa (vendar priporočamo, da med predavanji ali seminarjem izklopite kamero ter s tem zagotovite dobro kakovost povezave). O tem vas bomo obvestili tudi med predavanji.

Drugi koristni nasveti

Udeležba na tečaju od doma ali kjer koli drugje na svetu po vaši izbiri ima veliko prednosti, vendar je vseeno treba upoštevati določene značilnosti virtualne učilnice.

Prosimo, obvestite ljudi na vašem delovnem mestu ali doma, da ste aktivni udeleženec virtualne učilnice, da se izognete morebitnim motnjam (na primer družinski člani, lajanje psov, čiščenje v hotelski sobi itd.).

Identifikacija udeležencev

Za ugotavljanje istovetnosti prijavitelja/udeleženca bo izvedena identifikacija, če bodo tako zahtevale okoliščine. V tem primeru boste potrebovali osebni dokument (potni list, osebno izkaznico itd.).

Kdaj se prijavim v virtualno učilnico?

Celoten postopek je enostaven in preprost, kljub temu pa se poskusite prijaviti 30 minut pred pričetkom virtualne učilnice. Ne skrbite, začeli bomo pravočasno.

Dodatne informacije

Če imate dodatna vprašanja, nas kontaktirajte in veselimo se srečanja v virtualni učilnici.

rok.piciga@caa.si

What hardware do you need?

A notebook, computer or tablet with camera and microphone.

Upon first usage, you must allow MS Teams to access the camera and microphone of your device. The system will ask you automatically and you just have to accept.

Some Technical Tips

We recommend using headphones to avoid acoustic feedback. Ideally, a device with an integrated microphone which is also wireless (like Apple AirPods etc.) works best. You can easily connect them to your computer via Bluetooth.

We recommend limiting other Wi-Fi-using devices during virtual classroom to guarantee a good connection and therefore good audio and video quality (however, we recommend to turn off the live camera to foster good bandwidth). We will remind you on that also during the seminar.

Other useful tips

Attending a course from home or any other place in the world of your choice has a lot of advantages but there are still some things to consider.

Please inform people in your area of work or home, that you are participating in a webinar, so as to avoid disturbances during the course (for example, family members, barking dogs, housekeeping while in a hotel room etc.).

Identification of participants

Identification of the applicant/participant will be performed if circumstances so require. In this case, you will need an identity document (passport, identity card, etc.)

When to log-in?

The entire process is easy and straightforward, but nonetheless, please try to log-in 30 minutes before the virtual classroom starts. Don't worry, we will start on time.

Additional information

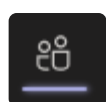

Do not hesitate to contact us if you have any further questions and we are looking forward to meeting you in the virtual classroom.

ORODNA VRSTICA

TOOLBOX

Udeleženci

Vidite vse udeležence, ki so udeleženi na seminarju ali virtualni učilnici (v nadaljevanju: seja).

Participants

View all participants who attend the seminar or virtual classroom (hereinafter: session).

Pogovor

Med sejo lahko zastavljate vprašanja, odgovarjate, dajete pripombe s pomočjo funkcije za pogovor.

Chat

During the session, you can ask questions, answer, and comment using the chat feature.

Dvigni roko – želim govoriti

Če želite vstopiti v pogovor ali zastaviti vprašanje, se po bontonu virtualne učilnice predhodno dvigne roko. S tem vam predavatelj da besedo. Ko zaključite, ponovno kliknite na ikono, zato da roko spustite (roka se avtomatično ne spusti).

Raise a hand – I want to take the floor

If you want to enter a conversation or ask a question, the code of conduct of the virtual classroom requires you to raise a hand. With this, the presenter/host gives you the floor. When you're done, click the icon again to lower your hand (this is not done automatically).

Vklopi / izklopi kamero

Vklopite ali izklopite kamero. Med izvajanjem predavanj oziroma med sejo predlagamo, da je kamera izključena.

Switch ON/OFF the camera

Switch camera on or off. During a session, we recommend that the camera is turned off.

Vklopi / izklopi mikrofona

Vklopite ali izklopite mikrofona. Med izvajanjem predavanj oziroma med sejo predlagamo, da je mikrofona izključena. Ko dobite besedo oziroma ko se aktivno vključujete, morate mikrofona vklopiti.

Switch ON/OFF the microphone

Turn the microphone on or off. During lectures or during a session, we suggest that the microphone is switched off. You must turn on the microphone when you have the floor or are actively involved.

Delitev vsebine

Možnost deljenja zaslona. To je praviloma v domeni organizatorja seje.

Share your content

Possibility to share the screen. This is usually in the domain of the session organizer.

Zapusti sejo

Ko je seja končana, se odjavite iz seje s pritiskom na ta gumb.

Leave a meeting

When the session is over, log out of the session by pressing this button.

Resnično upamo, da je seminar oziroma virtualna učilnica izpolnila vaša pričakovanja.

We really hope that the seminar or virtual classroom has met your expectations.
